Re: Cane Molasses,

This letter is written to confirm that to the best of our knowledge there is no GMO sugar cane being commercially used by any molasses suppliers we purchase from. The Molasses (Heavy Brix Molasses, and any combination of molasses and water) do not contain any grain or plant protein products that might have been produced from or with grain and plant protein products that might be genetically modified.

If you have any concerns or requests please let me know. I can be reached at (281) 290-2051 or by e-mail at Paulm@westway.com.

Sincerely,

Paul Mostyn
Compliance and Beef Cattle Specialist
