

# PEST OUT®

## Botanical Insecticide

**Pest Out** is a miticide and insecticide that provides excellent control of mites, thrips, and aphids. Its patented formula uses unique modes of action to control difficult pests. The safe and long-lasting formula protects your crops all season to the day of harvest.

With physical, chemical, and behavioral modes of action, **Pest Out** works as a curative and preventative miticide and insecticide. Derived from cottonseed oil, clove oil, and other natural ingredients, its natural oils are toxic to aphids, thrips, and other soft bodied pests yet remains harmless to beneficial and non-target insects.

While safe to the environment and those working with **Pest Out**, when used as directed, it delivers a strong control over developing and adult stages of mites, dissolves spider mite webs, and limits spider eggs. **Pest Out** provides long-lasting and complete pest control free of harsh chemicals.

### Product Profile

Form: Liquid

Function: Miticide and insecticide for control of mites, thrips, and aphids

Compatibility: Check compatibility by spraying a small number of plants before initial applications

Shelf Life: Cool, shaded areas, up to 3 years

### Advantages:
