Tres Oil

Spray Oil Emulsion Fungicide, Insecticide and Miticide

Product Data Bulletin

Features

- Uniform coverage to smother pests without causing burn or stress to plants
- Effective in high or low pressure applications
- Excellent compatibility with pesticides labeled for use with oil
- Requires much less agitation to maintain homogenous mix
- Penetrates dense spots in canopy

TRES OIL's mode of action is through suoffocation of eggs, larvae and nymphs of insects and adults of soft bodied insects. This mode of action necessitates total spray coverage. Use enough spray solution to completely cover both top and bottom of all of the leaves and completely penetrate the leaf canopy.

TRES OIL controls a wide range of mite and insect pests in the egg stage such as: spider and eriophyid mites, armored and soft scales, mealy bugs, psyllids, whiteflies, aphids, leafrollers, leaftiers, webworms, cankerworms, plant bugs, leafhoppers, and adelgids. TRES OIL will kill other immature forms if spray covers the insect.

For use in the greenhouse, shade house, industrial plantings, residential plantings, and field plantings.

Use Precautions

Keep container tightly closed in storage. All horticultural oils interfere with or slow plant transpiration and respiration during periods of evaporation. Do not apply during periods of drought or when plants exhibit moisture stress.

Compatibility

TRES OIL is compatible with most commonly used insecticides and fungicides. Read and follow all precautions and limitations on labeling of all products used in tank mixtures.

Timing The Treatment

You must determine the precise timing to fit local growth and climatic conditions. This product can be applied up to day of harvest.

Active Ingredients

Petroleum Oil80	.0%
Other Ingredients	.0%

Unsulfonated Residue Petroleum Oil 92% min. EPA Reg. No. 48813-1 EPA Est. No. 48813-IL-1

Rate Recommendations

Crop: Citrus

Pests: Scale (Glover, Chaff, Purple, Red, Yellow, Snow, Brown, Soft, California), Whiteflies, Mites, Blackfly, Sooty Mold, Greasy Spot.

Application Rate: 1-2 gallons of TRES OIL per 100 gallons of water per acre.

Mixing Instructions

Add sufficient water to the mixing tank to allow proper agitation. Add the correct amount of TRES OIL to tank. Maintain agitation until solution is used. If other pesticides are to be added, do so after TRES OIL has been thoroughly mixed.
