

Why Use NRG's Nature's Solution™?

- Biologically digested liquid poultry manure
- Live, Aerobic and biologically active
- Enhances soil structure, aeration and flocculation
- Improves water penetration

- Increases soil water holding capacity
- Stimulates root growth
- When blended with fertilizer:
 - Improves fertilizer availability and efficiency
 - Greatly reduces nitrate leaching
 - Allows for reduced fertilizer rates (at least 30%) while maintaining performance

Roots from control area

Roots one week after application

Some people say that it smells like money...
Everybody else says it smells like chicken \$#@%!
