## MRX

All of our products are based on the Bucutunna Clay that is mined here in Bay Springs MS. This is the process of the clay, first we mine it, then aerate for twelve months, run it through a low oven heat tumble dryer and then screen it.

All Restora-Life Mineral products are based on this clay.

For MRX we add these ingredients to make up the finished product:

Bucutunna clay, Zinc Oxide, Manganese Oxide, Cobalt, Calcium Iodate and Lime.

Additives for the MRX is mined products only .And these are all free of: GMO, Animal origin products, BSE and TSE, animal flour and fat, Drug residue, Solvent residue, absent of salmonella.

### MRX

#### Guaranteed Analysis:
