

BROWN'S FISH HYDROLYSATE is made from fresh rainbow trout grown in the cool, pristine waters that flow through the beautiful Blue Ridge Mountains. The Native Americans who lived here hundreds of years ago knew that fish were an amazing source of nutrients that plants needed. We continue that tradition today with our natural fish fertilizer. Don't let the low N-P-K numbers fool you, our fish fertilizer has been known to outgrow chemical fertilizers with much higher values because of the large amount of micronutrients it contains.

#### GUARANTEED ANALYSIS

Total Nitrogen.....2%  
0.5% Water Insoluble Nitrogen  
1.5% Water Soluble Nitrogen  
Available Phosphate( $P_2O_5$ ).....3%  
Soluble Potash ( $K_2O$ ).....1%

Ingredients: Rainbow Trout and Phosphoric Acid

Complies with National Organic Program  
for use in organic production.

AMAZING RESULTS

#### DIRECTIONS FOR USE:

SHAKE WELL. DO NOT STORE DILUTED.  
NOT FOR INGESTION.

#### VEGETABLE CROPS:

Recommended application is 3 gallons per acre 4 times a year. The first application is at planting, the second is when the first primary leaves come out. The third application is at the pre-blossom stage, and the fourth application is at pre-harvest.

#### HOUSE PLANTS:

Use 1 tablespoon per gallon of water every 2-3 weeks.

#### OUTDOOR PLANTS:

Use 1/6 cup per gallon of water every 2-3 weeks for shrubbery, trees and flowers. Apply until soil is saturated or until the leaves are wet on both sides if used as a foliar spray.

#### LAWNS:

Use 4 gallons per acre, mixed with plenty of water. Fertilize monthly during growing season and again in the fall.

#### COMPOST ENHANCER:

Use 1/3 cup of water per gallon every 2-3 weeks

#### SEED GERMINATION:

Let the seed sit in a solution of 1 teaspoon per cup of water.
