Thomas Harr  
Earthwise Organics  
PO Box 533816  
Harlingen, Texas 78553

Dear Mr. Harr,

In regard to your request to determine the acceptability of the micronutrients purchased from us for use in USDA certified organic operations we are sending this letter to confirm the following per our German manufacturer;

Epsom Salt pure, technical

Epsom Salt Technical – a Highly Versatile Product:

Our epsom salt is successfully used to

- decrease the flammability of insulants
- make cellulose fibers more stable
- improve the efficiency of detergents and cleaning agents
- make leather more supple
- increase the durability of industrial floors

Your Advantages

Our epsom salt is extremely versatile and offers many advantages. It is

- a natural product
- low in secondary salts and heavy metals
- fully water soluble
- colour-neutral even under oxidising conditions
- less corrosive than other salts, in particular chlorides (e.g. NaCl, CaCl<sub>2</sub>)
- economical
- consistent and readily available

Trade name

Certificate No. 7257

Certificate No. EN 1238

Certificate No. OH 1303

- Epsom Salt pure, technical  
Magnesium Sulphate Heptahydrate ( $MgSO_4 \cdot 7H_2O$ )

I have also attached the specification sheet of the German product you purchase. I believe this will allow you to determine whether this product is appropriate for your specific application as we cannot determine that for you.

If you have any further questions or need any additional information do not hesitate to let me know.

Regards,

Melanie Koch
