

Ferti-Organic

Our pure, cold pressed, wild- crafted **Karanja Oil** is extracted from carefully stored seeds of the karanja tree (pongamia glabra). It is free of aflatoxin and pesticides. Can be used as an agricultural spray on its own or combined with **Ferti-Neem Oil**. Carefully produced and packaged to maintain its purity, freshness and beneficial properties giving it its golden brown color and distinctive yet mild nutty aroma. **Karanja Oil**, like **Ferti-Neem Oil**, has been widely used for nematocidal and bactericidal activity.

Application

Mix 1 oz. karanja oil with 1 to 1.3 gallons water, using 1/2 -2 tsp. soap or other emulsifier to mix thoroughly. If the water is cold, use a little warm water (DO NOT USE HOT WATER - it can destroy the properties of the oils) to thoroughly emulsify the oil and then add the remaining water and agitate well.

Please see tech sheet for further application rate details.

Shelf Life: 2 years.
Made in India
Net content 5 gal
